

When your customers leave, how do you get them back?

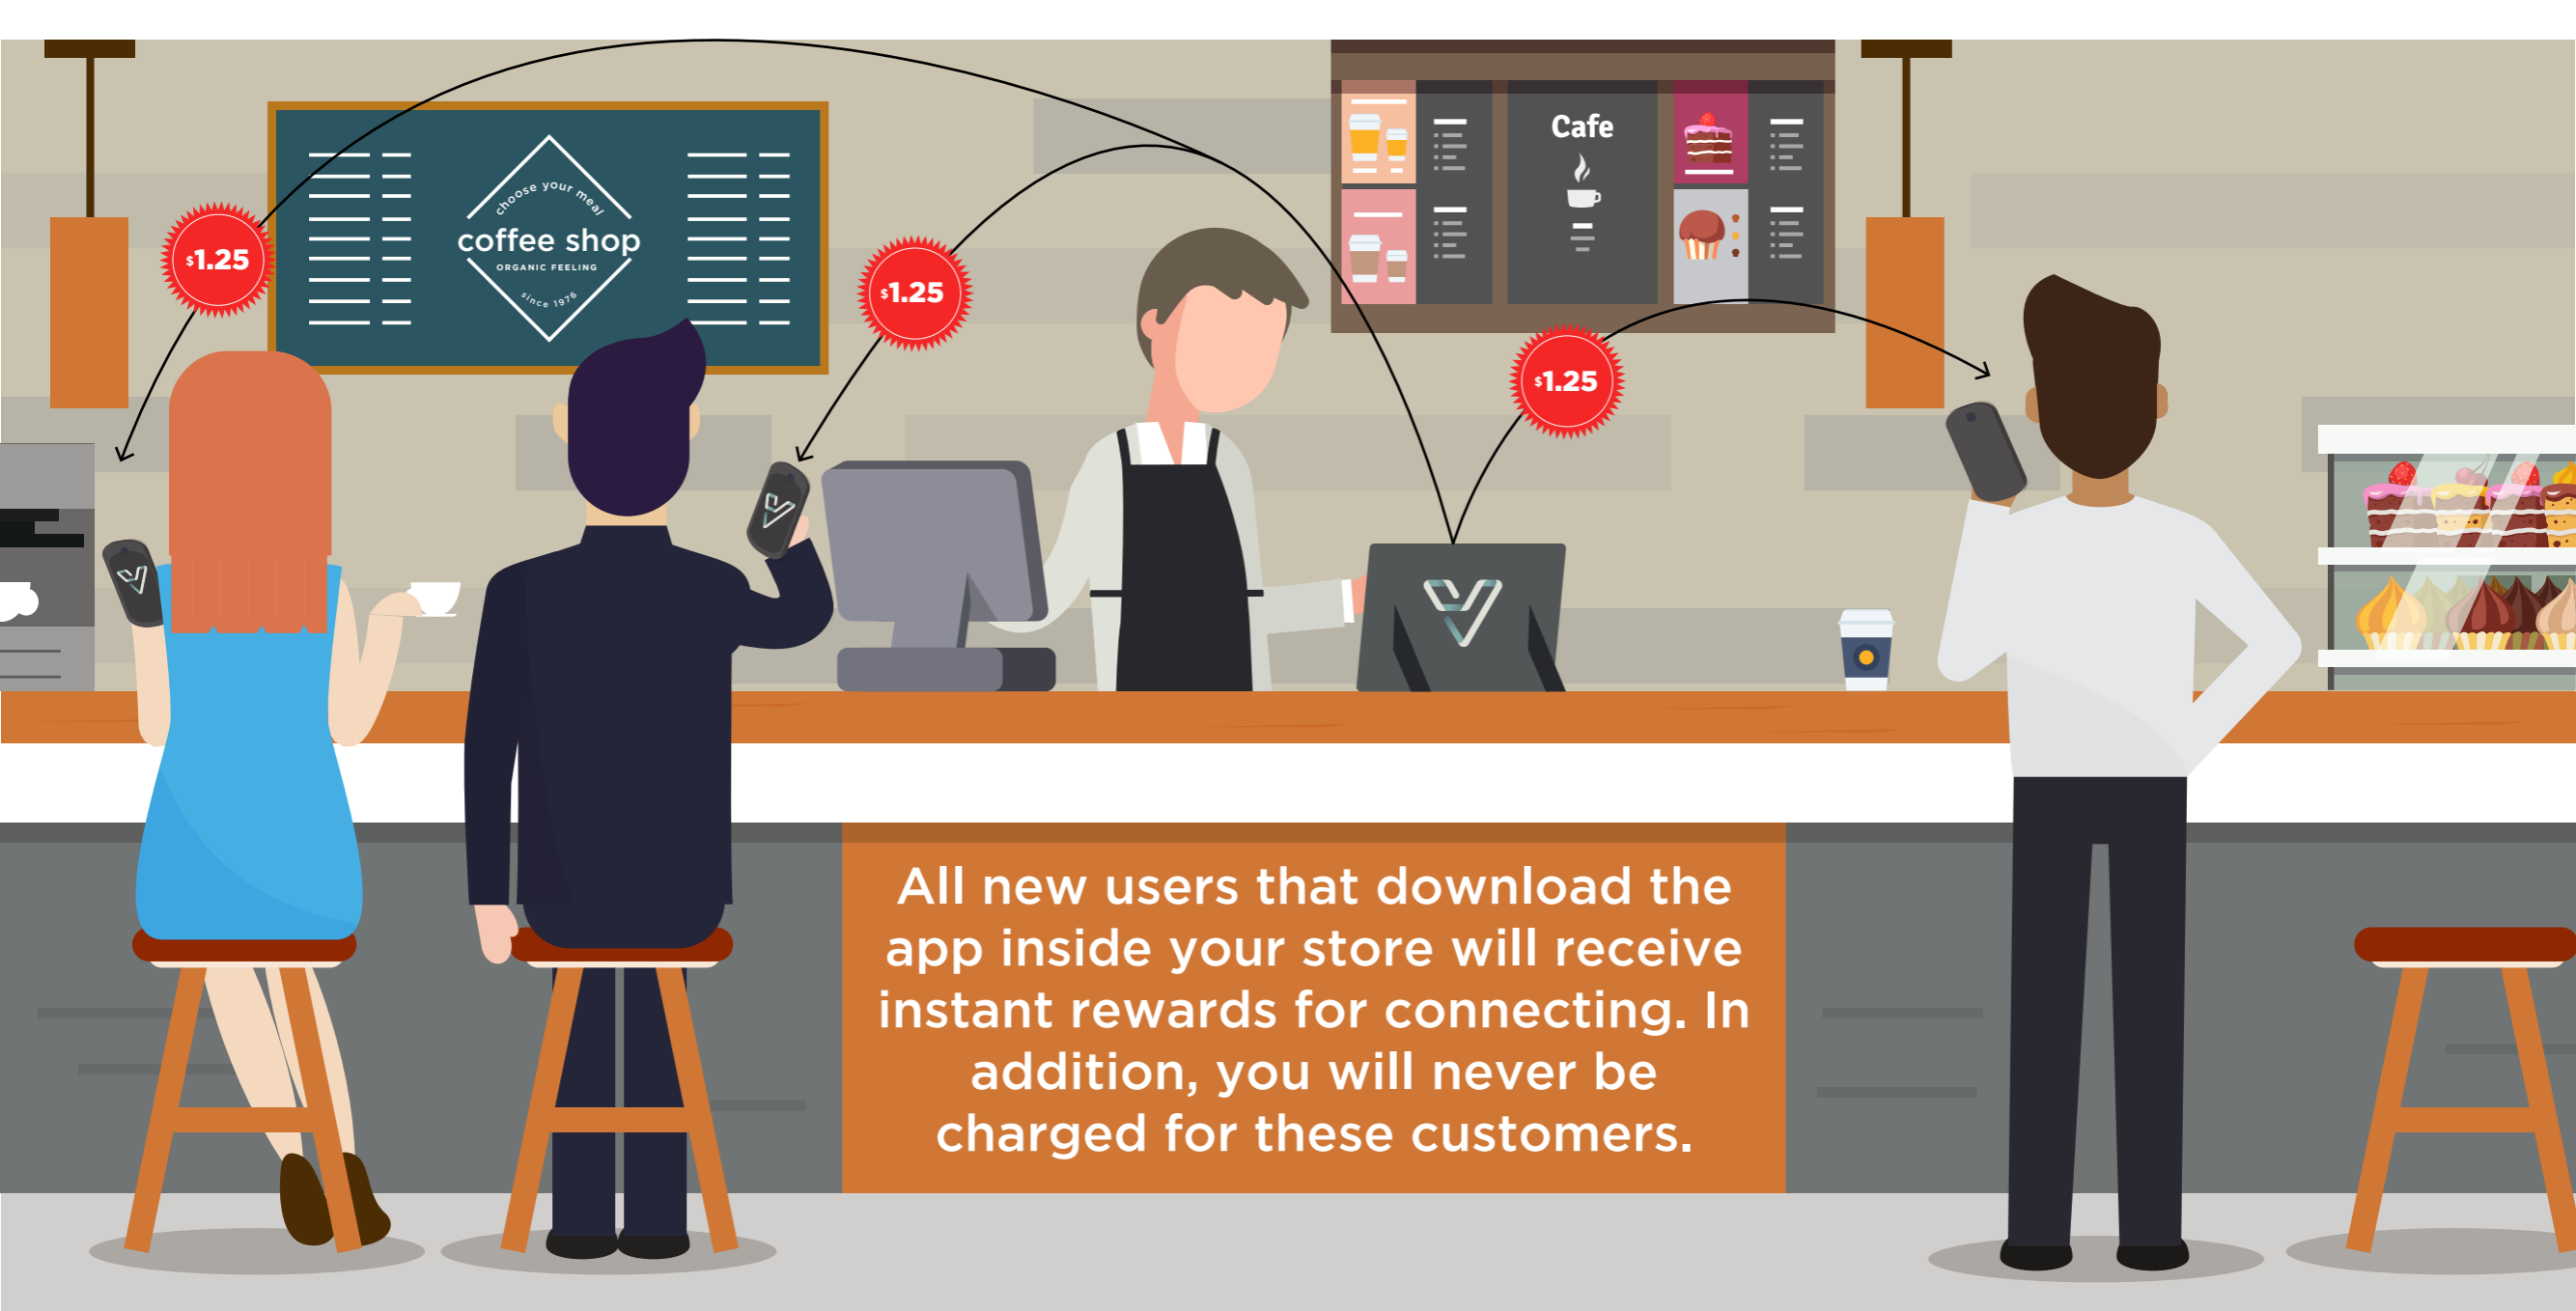

INTRODUCING VALEVO

Valevo is a marketing and rewards platform for local businesses that improves customer retention and profitability through the delivery of smart incentives.

CONNECT CUSTOMERS

Grow your Valevo network by inviting customers to download the app and connect with your business.

VALEVO GETS TO WORK

Using geo-location and shopping habits, Valevo identifies your infrequent customers and gradually incentivizes them to return.

BRING THEM BACK

It's inefficient to give away the full incentive to everyone when some might come back for less. Valevo creates smart incentives to motivate infrequent customers.

INCREASE SALES

Valevo helps grow your customer base by turning infrequent customers into regulars.
